ABOUT FUNDSCHOOL

A calmer way to prepare for NISM.

FundsSchool is a free app for NISM certification exams. It breaks each workbook into short chapters, lets you practise with questions that explain every answer, and ends with a full rehearsal of exam day.

Study twenty minutes at a time, between classes or on the bus. The app keeps your plan, your streak and your progress.

FundsSchool is an independent prep app, not affiliated with or endorsed by NISM, SEBI or AMFI. Only NISM's own examination awards a NISM certificate.

Free, and it stays free

Every chapter, question and mock, for every student.

No ads, no product pitches

The app teaches. It does not sell.

Written to the syllabus

Original questions, mapped chapter by chapter to NISM's workbooks.

WHY NISM

Your first finance job may ask for it.

SEBI requires everyone who sells or distributes mutual funds, including the distributor's staff who deal with investors, to pass NISM Series V-A.

Other NISM certificates open the way to derivatives and portfolio management roles. Clearing one before you graduate puts you a step ahead.

New to finance? Start with V-A. It is the foundation the others build on.

WHERE IT CAN LEAD

Bank relationship manager **V-A**

AMC sales and operations **V-A**

HOW IT WORKS

Four steps from first chapter to exam day.

Learn

Short chapters with audio summaries and a quick check at the end.

Book NISM's exam with confidence when your scores say you're ready.

A plan built around your exam date

Set the date and the app spreads chapters, mocks and revision across the days you have, about 25 minutes a day.

STEP 1 • LEARN

Chapters you can finish on the bus.

Each workbook in chapters of about ten minutes.

Listen or read. Every chapter has an audio summary.

Swipe-to-read cards keep one idea on screen at a time.

REVISE AND KEEP GOING

Remember it on exam day.

Flashcards that space out

Formulas, terms and traps come back just before you'd forget them.

Home-screen widgets

Your streak, today's question and the exam countdown, without opening the app.

Streaks, XP and levels

Small daily wins that keep the habit going till exam day.

Question of the day

One question every day to keep the chapters fresh.

STEP 3 • REHEARSE

Sit exam day before it comes.

The Final exam is one fixed paper per exam, written to NISM's unit weightage and sat under exam conditions.

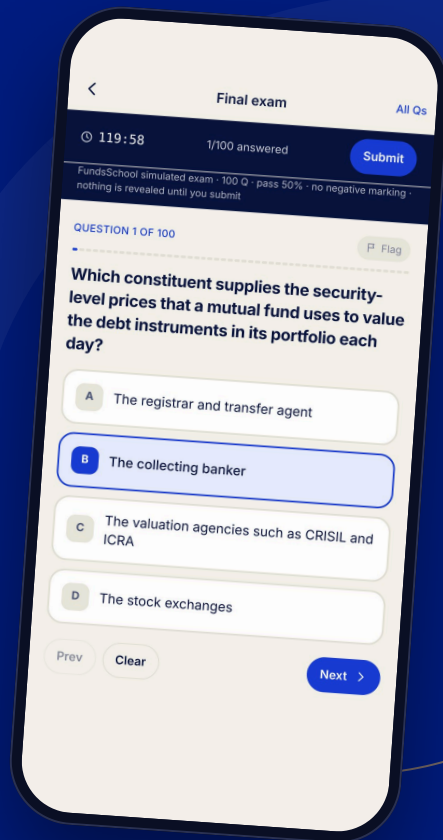

Same length and clock
as the real exam

Negative marking
wherever NISM uses it

No answers shown
until you submit

Full review after
